

# THE GRID

SMALL BUSINESS RESOURCES DURING COVID-19

The GRID's mission is to champion entrepreneurial thinking and cultivate an entrepreneurial ecosystem that drives regional economic vitality and connects business builders to the resources, education, expertise, and social connections that will help new ventures succeed and help entrepreneurs thrive in the Northwoods.

We want to make sure that our area small businesses have every available resource available to them, especially during COVID-19. This interactive document will be updated as new information and resources become available. One on one sessions with area experts to help local businesses work through their questions virtually and by phone will be available shortly. A survey to business owners about their needs and concerns will also be sent. This survey data will be shared directly with the Wisconsin Economic Development Corporation to help them get the resources our small businesses need to them in a way that works for them.

We will do our best to keep you informed and up to date as possible. You can follow us at <https://www.facebook.com/TheGridNorthwoods/> or reach out to us by email at: [thegridnorth@gmail.com](mailto:thegridnorth@gmail.com) or by phone at: 715.365.4425
